DIGEST SHEET

S-73-12-01

TITLE OF ORDINANCE Per Bid Reference No. 546 -Thermo Plastic Pavement Marking.

Equipment and Materials re:

DEPARTMENT REQUESTING ORDINANCE Traffic EngineeringSYNOPSIS OF ORDINANCE Pave-Mark Contractors : Item #1 One (1) ThermoplasticMachine Applicator... Item #2 One (1) Thermoplastic Melter... Item #3 - 2000 lbs.Thermoplastic Pavement Marking Compound.Purchase of Thermoplastic Melter, Machine Applicator and Pavement Marking Compound

to be used for the 1974 City street marking program. The extruded plastic, when  
applied correctly, will provide crosswalk-lines and stop-bars at signalized intersections  
having a life expectancy of three to four years.

EFFECT OF PASSAGE The application of Thermoplastic Pavement Marking Compound will  
conform to State and Federal requirements regarding "Uniform  
Traffic Control Devices". Will provide adequate day and night time guide paths for  
Pedestrians crossing at intersection and mid-block locations. They will last at least

three to four years duration before having to be replaced. Will withstand winter weather.

EFFECT OF NON-PASSAGE Failure to conform to Federal requirements regarding  
"Uniform Traffic Control Devices" would disqualify the City for future Federal funding.  
without legal designated crosswalk markings, pedestrians would be exposed to unnecessary  
danger that could result in death, injury and confusion.

MONEY INVOLVED (Direct Costs, Expenditures, Savings)

Total cost - \$9,000.00. The fact that they will have a three to four year duration  
will save the City considerable monies.

ASSIGNED TO COMMITTEE (J.N.)Fin with
